沒有了地球，何來有家？所以公民教育，必須由環保做起。我們希望播種的環保種子，在每一個學生的心坎裏植根，再而散播開去，感染他們的家人、朋友與社會，最後茁壯成長。

Without the Earth where else can we live? It is, therefore, crucial that we give top priority to the education of environmental awareness and protection as an inalienable part of Civic Education. We wish that students grow healthily with entrenched knowledge of the environment, enabling them to affect positively our society, families and friends.
