

金獎
Gold Award

學校：中學
Schools: Secondary

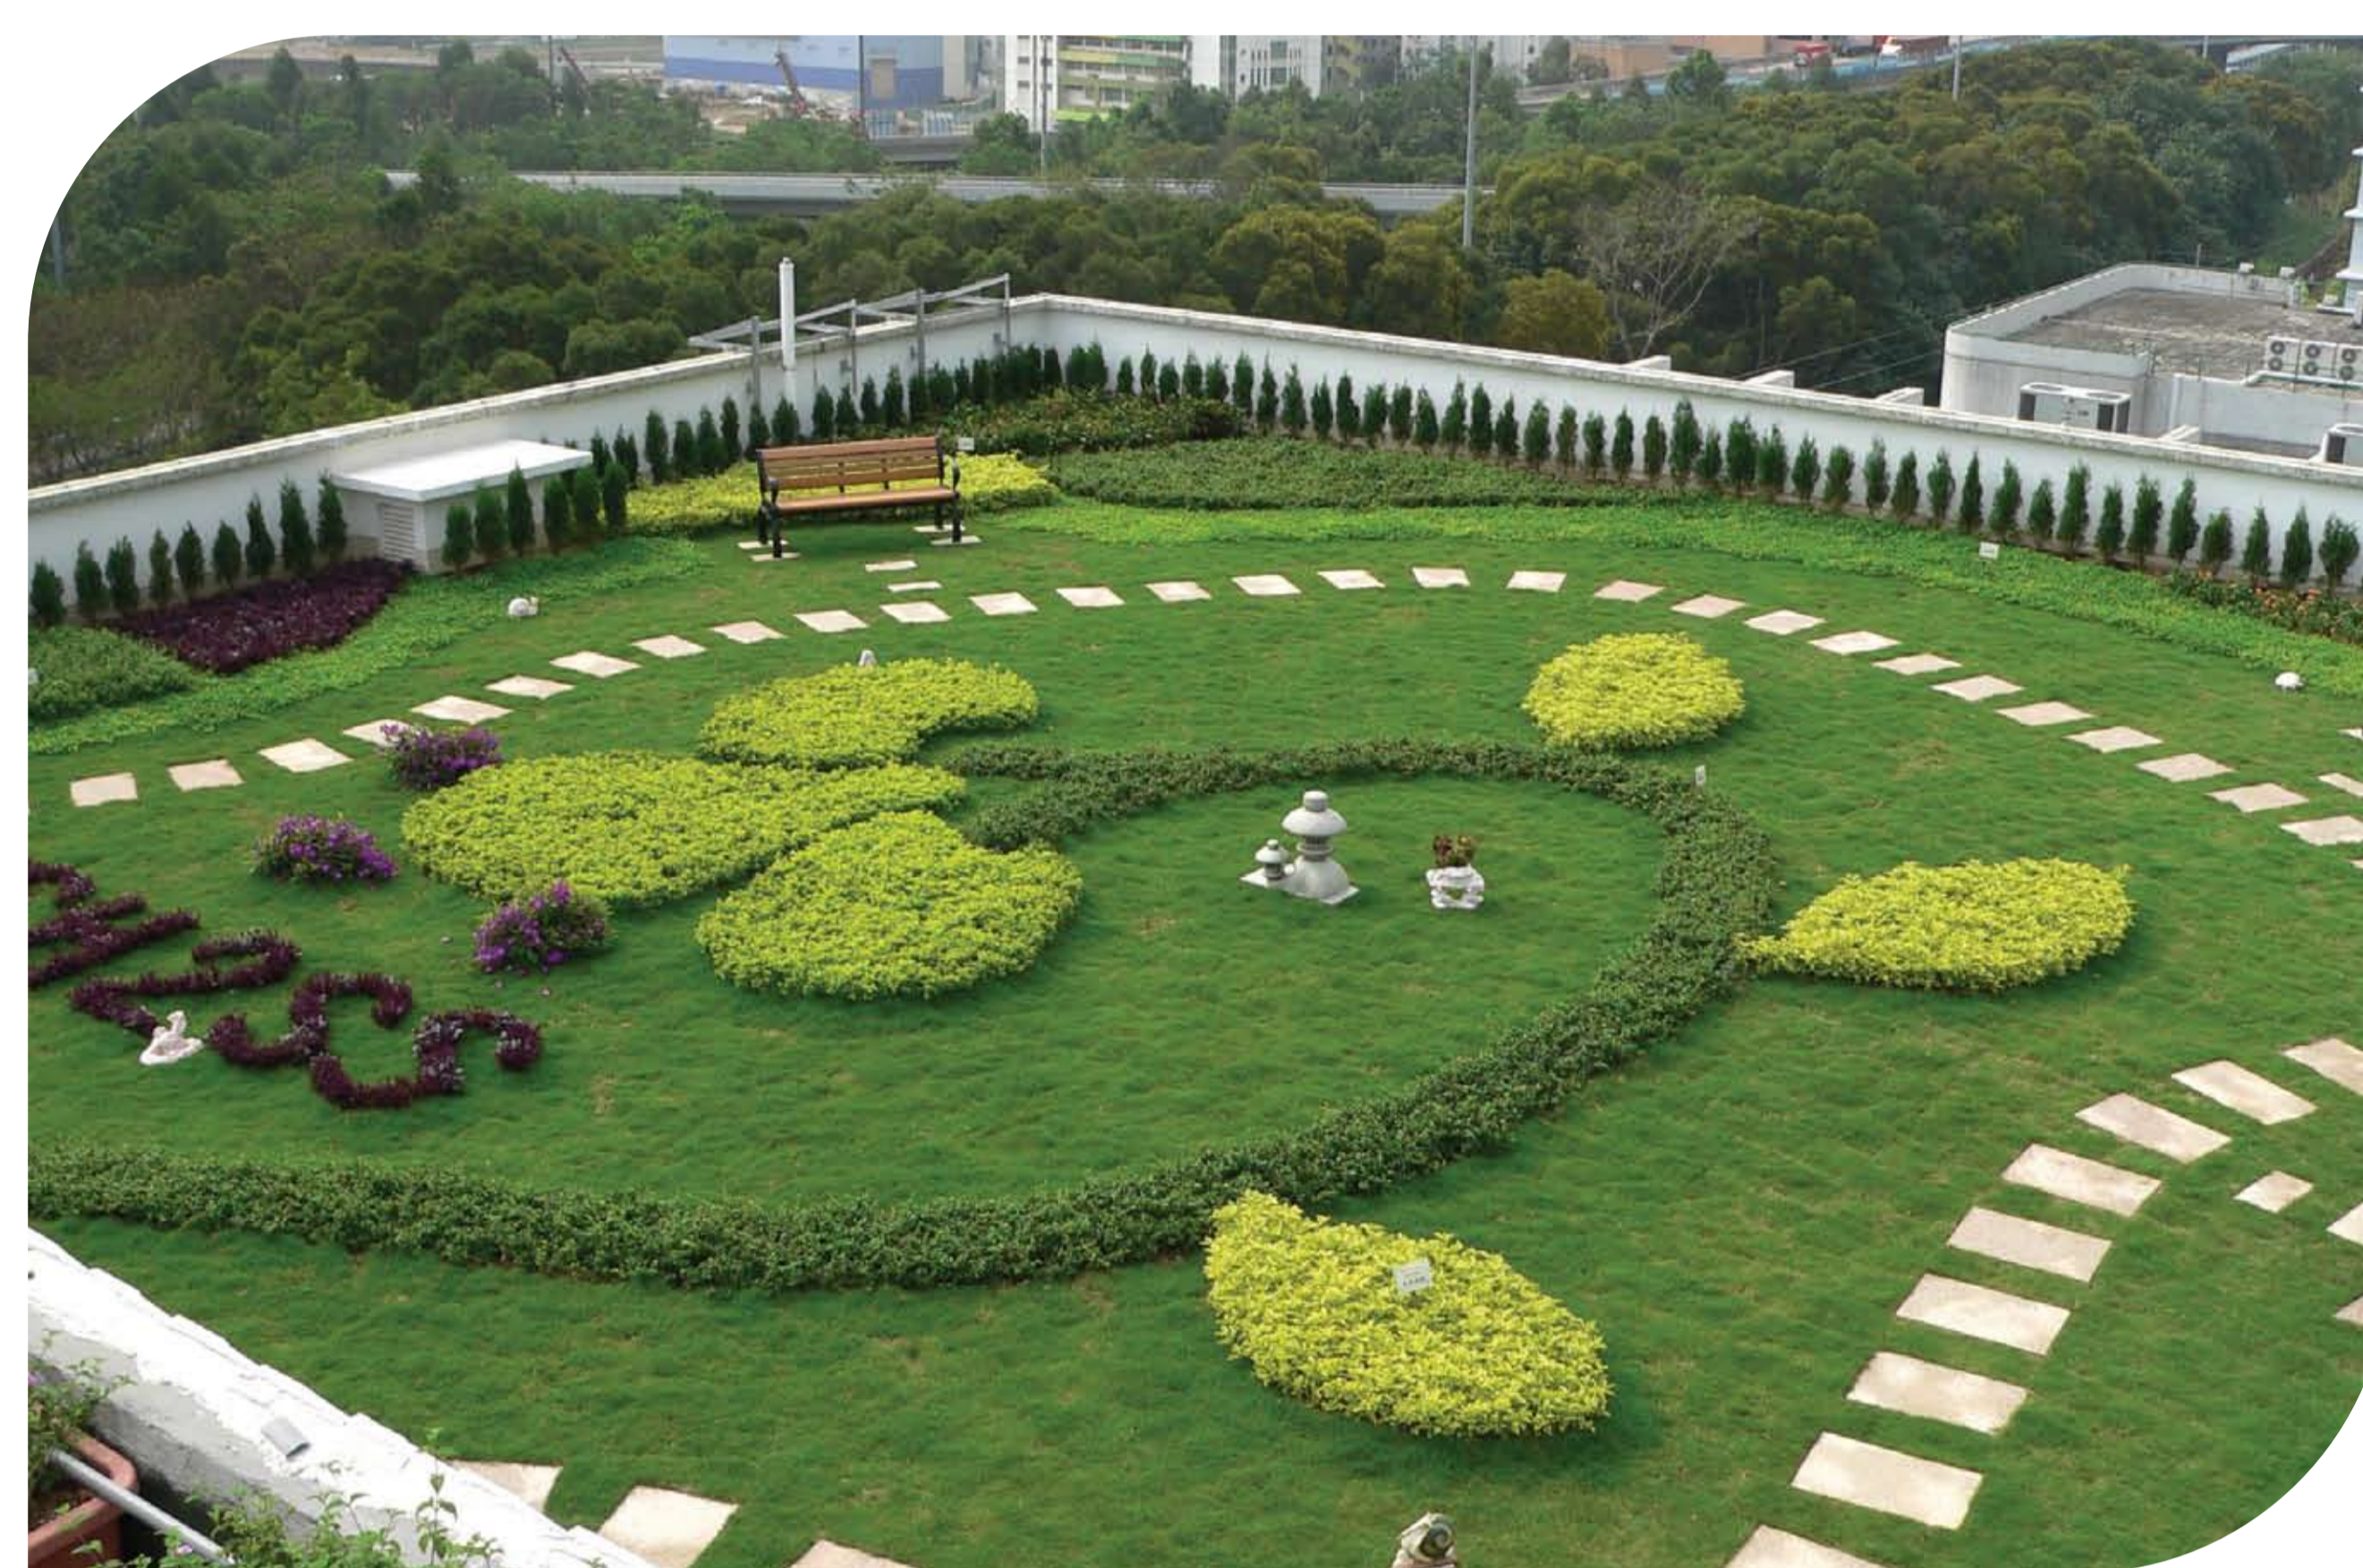

仁濟醫院第二中學 Yan Chai Hospital No.2 Secondary School

在學校推行環保教育，可謂意義重大，因為學校是一個孕育未來社會主人翁的地方，透過環境建設、課程、政策以及多元化的活動，學生能培養出環保意識，並且成為一個對環境保護有承擔的人。

It is extraordinarily meaningful to run environmental protection education programmes in our school since the school context is a ground for our future. Through adopting environmental construction, curriculum, strategies and diversified activities, students' conservation consciousness is nurtured. More importantly, they become more responsible in environmental issues.
