

2013 香港環保卓越計劃

Hong Kong Awards for Environmental Excellence

製造業 Manufacturing

銅獎
Bronze Award

香港飛機工程有限公司

Hong Kong Aircraft Engineering Company Limited

香港飛機工程致力引入創新科技以改善能源效益及減低整體的碳足印，如採用電動車及電動設備改善工作場所的空氣質素，更於2013年引入全港首個洗飛機機械人以減少用水量。

HAECO applies new technologies to improve energy efficiency and lower the overall carbon footprint. We use electric vehicles and ground supporting equipment to improve the air quality within our premises. In 2013, we also introduced the first aircraft washing robot in Hong Kong to reduce water consumption.

洗飛機機械人。
Aircraft washing robot.

電動車及電動設備。
Electric vehicles and electric ground support equipment.

太陽能熱水系統。
Solar water heating system.

天花輻射式空調系統。
Radiant cooling ceiling system.
