We continuously drive the green chain management and the concept of environmental protection, and to encourage staff, alliances and logistics sector towards environmental excellence.

將貨台的牆身及地面重新粉飾，並將光管更換為T5管，提高貨台的光亮度，節省用電。
Repainting the loading bay area and replacing all lightings with T5 light tubes to raise the brightness of the working area and reduce electricity consumption.

外牆的標誌由原本的射燈照射改用LED背燈襯托，並設有戶外感光開關功能，大大減低用電量，而且更加美觀。
The spot lights of the signage have been replaced by LED backlights with brightness sensitive switch, which can reduce electricity consumption and beautify the appearance of the building.

辦公室推行區域關燈措施。
Our office has implemented light zoning.

在2013年添置兩部歐盟五型貨車，以提高車隊整體的運作效益。
We acquired two more Euro 5 trucks in 2013 to improve the overall operational efficiency of our fleet.
