

香港環境卓越大獎

Hong Kong Awards for Environmental Excellence

香港飛機工程有限公司
Hong Kong Aircraft Engineering Co. Ltd.

製造業及工業服務

Manufacturing and
Industrial Services

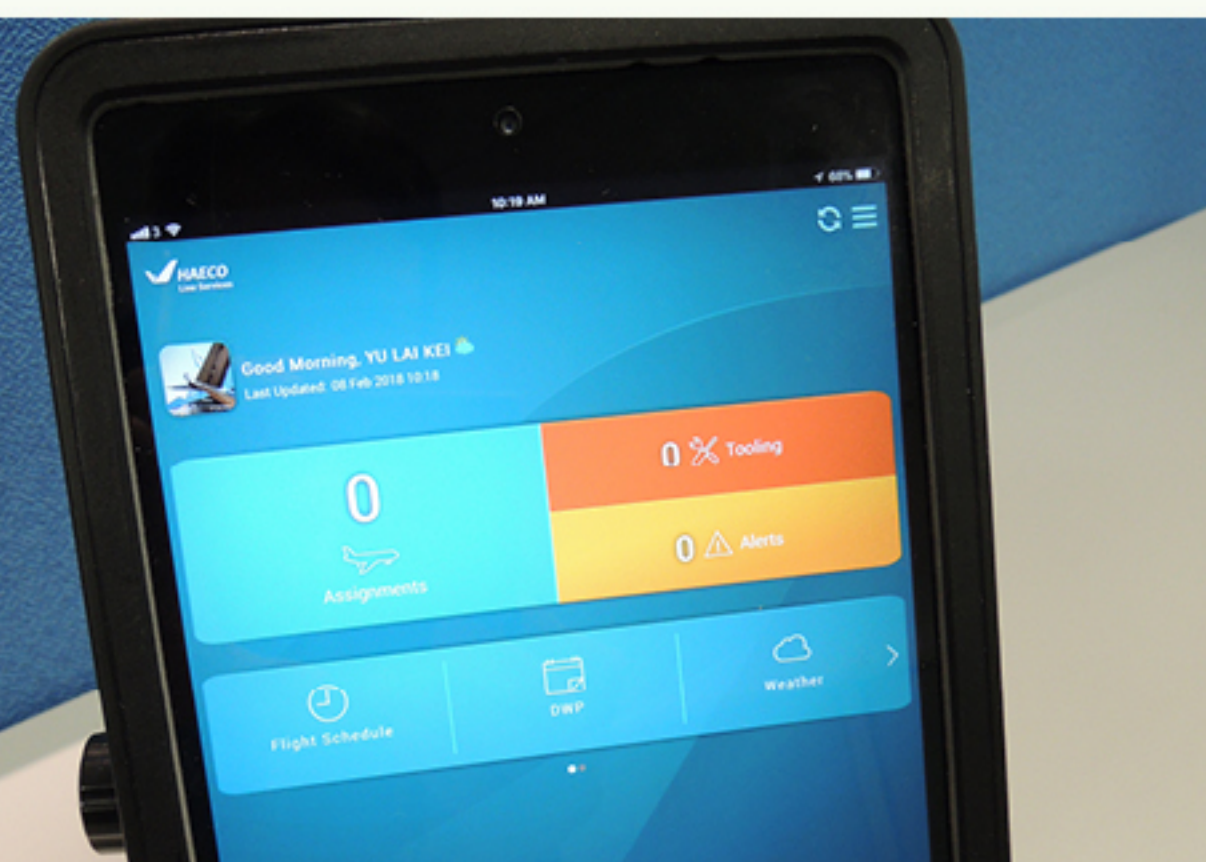

香港飛機工程有限公司（港機）多年來積極於業務過程中實踐環境管理，同時透過聘用顧問分析現有的耗能模式，定出有效的能源管理方案，並安裝不同的節能設備，成功提升港機的節能表現。港機亦致力提高員工的環保意識，與不同本地及海外持分者緊密合作，努力改進水資源及廢物管理等不同範疇的環保成效。

Hong Kong Aircraft Engineering Co. Ltd. (HAECO) is dedicated to implementing environmental management in its business operation throughout the years. Through engaging a consultant to analyse the present mode of energy consumption in order to set up an effective energy management solution and installing different energy saving facilities, HAECO has successfully enhanced its performance in energy reduction. In addition, HAECO is also devoted to enhancing its staff's environmental awareness and closely cooperates with various local and overseas stakeholders for improvements in different environmental aspects like management of waste and water resources.

協助航空公司客戶改裝飛機設計，如通過安裝小翼，清洗引擎以及移除飛機油漆等，以節省燃油消耗。

Helping airline clients to retrofit aircraft designs to save fuel consumption with different measures such as installing winglets, engine wash as well as aircraft paint removal.

通過開發手機應用程式，以便前線員工用作通訊、完成維修服務時簽署及參考維修手冊等用途，有效減少日常使用紙張。

Significantly reducing the use of paper in daily operation by developing a mobile apps for frontline staff members to communicate through mobile devices, sign-off electronically upon completion of service and reference to aircraft maintenance manual.

透過於機庫更換現有的高棚泛光燈為LED泛光燈及提高分體式空調機組的效率，以節省能源。

Conserving energy by replacing existing high bay flood lights with LED flood lights at hangar and increasing efficiency of split type air conditioning units.
