中國光電科技有限公司 - 智能節能調光照明產品 CET OPTO CO., LTD. - T5 Smart Dimmable Fluorescent Lamp

隨著科技的發展和進步，集智能、動感、安全和舒適於一身的節能照明產品將會成為未來的主流。本公司為此開發了此產品，為世界可持續發展盡力。我們的智能節能調光燈利用多普勒雷達感應技術，可減少電能達70%，適用於後樓梯、停車場、電梯大堂和走廊。此燈配備一個動態感應器，有人使用時全光，並於感應範圍內沒人時自動調暗以節省電能。

Innovative features incorporating intelligence and environmental friendliness in lighting devices help save energy which is a trend today. CET is committed to promoting the sustainable development in environmental protection. CET's Smart - Dimmed Energy Saving Lamp utilizes Doppler Radar Sensor and can be used in back stairs, car park, lift lobbies and corridor with energy saving up to 70%. It works with a motion sensor. When sensing module senses occupancy nearby, the lamp will operate under full power. When there is no occupancy, the lamp will be dimmed down for energy saving.

T5智能節能調光支架
T5 Smart Dimmable Fluorescent Lamp

電梯大堂安裝了智能調光燈的調暗模式
The lamps will become dimmer when there is no motion in the lift lobby

電梯大堂安裝了智能調光燈的全亮模式
The lamps will be brighter when motion is detected in the lift lobby

2 x 11瓦特智能節能調光燈
2 x 11W PL Bulkhead Lamp
