晉興科技國際有限公司 - "MRCT Bigfoot" 環保節能光源組件 MRC Technology International Ltd. - "MRCT Bigfoot" Green Backlit Display Panels

晉興科技國際有限公司所研發的嶄新專利技術"Bigfoot"，不但解決了廣告燈箱經常出現的斑馬條紋和影像變黃問題，更比傳統燈箱減少50%或以上的耗電量和碳排放量。"Bigfoot"的材料可以循環再用，其散熱及光度亦較傳統燈箱優勝，並符合國際間的建設標準及條例。此外，“Bigfoot”技術已在香港環保卓越計劃下取得產品環保實踐卓越級別標誌。

MRCT "Bigfoot" technology not only solves the problems found in traditional light boxes including zebra light strips and yellowish images, it also reduces energy consumption and carbon emission by 50% or more. The product is made of recyclable materials and its ability to lose heat and brightness are better than traditional light boxes. It can also fit for all international construction standards and regulations. In addition, "Bigfoot" technology has been awarded the "Class of Excellence" Productwise Label under the Hong Kong Awards for Environmental Excellence.
