聯合包裹運送服務公司 UPS Parcel Delivery Service Limited

UPS透過每日派送平均一千五百一十萬件包裹到超過200個國家及地區，連繫著過百萬客戶。透過把客戶連接到全球最高能源效益之一的企業物流網絡，UPS間接幫助客戶減少其碳足跡。透過抵消託運過程對氣候造成的影響，UPS carbon neutral 體現了綠色物流。

UPS links million of organizations and individuals together every day by delivering a daily average of 15.1 million packages and documents in more than 200 countries and territories. By connecting customers to one of the world's most fuel-efficient corporate logistics networks, UPS helps reduce and mitigate their indirect carbon footprint. To offset climate impact of shipments, UPS carbon neutral makes green logistics come true.
