金杯印刷上下同心推動清潔生產，落實的環保方案包括五方面，分別是增強員工環保意識、從源頭採購環保物料、使用環保生產技術與設備、使用環保輔助設施及廢料回收和再用，至今已成功減少69%揮發性有機化合物排放、19%電力耗用和5%食水耗用。

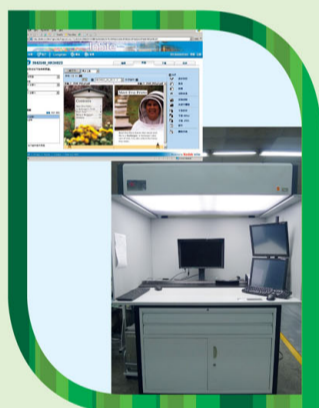

The Cleaner Production Campaign is well supported by members from all levels in Golden Cup Printing. Measures adopted can be categorized into 5 major aspects: enhancing staff awareness, green procurement, adopting green production techniques and using environmental friendly equipment, installing environmental friendly ancillary facilities, recycling and reusing wastes and scraps. We have successfully reduced 69% VOC emission, 19% electricity consumption and 5% water consumption.

全面安裝自動洗車裝置，淘汰使用傳統有機溶劑清洗機器，避免揮發性有機化合物排放。  
Installing automatic non-VOC blanket washing system to eliminate VOC emission.

無水印刷—綠色印刷技術，無需使用任何有機溶劑，避免揮發性有機化合物排放。  
Adopting Waterless Printing Technology to eliminate VOC emission.

使用遠程證樣系統和電子打樣系統，取代傳統打樣系統，節約油墨、紙張和減少碳足跡。  
Remote Proofing and Soft Proofing systems to promote paperless proofing and reduce carbon footprint.

採用中央真空及鼓風系統，節約能源和減少對空調的損耗。  
Central vacuum and air-blowing system not only offers better efficiency but also lowers air-conditioning loading.
