嘉信 (香港) 工程有限公司 - 廣州橋達建築材料有限公司 CaSO (HK) Engineering Co., Ltd. - Guangzhou Qiao Da Building Materials Co., Ltd.

嘉信(香港)工程有限公司致力以優質服務提供綠色建材；每年香港的新建樓宇數字均在迅速增長中，但是大部份的建材卻沒考慮到建築物的生命週期。我們的澳格林牆體系統為各建築業的同伴提供了一種符合高質量、低成本、短工序及安全的環保建材。透過各方通力合作，我們深信下一代必然可以生活在一個更美好的環境。

CaSO (HK) Engineering Company Limited aims at providing green products backed by premium service. In Hong Kong, the number of new buildings is increasing rapidly every year, yet most of the materials used do not take the complete life cycle of the building into account. AUGREEN Block Wall System is an integrated solution for fulfilling various requirements such as higher quality, lower cost, shorter project time and safer sites. Through the joint efforts, we believe the next generation could live in a better world.

生產流程完全無污染，包括噪音、水質及空氣污染。
Production Process - No pollution in production process including no noise, water or air pollution.

在生產過程中使用潔淨能源，即無煙氣焦煤。
Use of clean energy, i.e. fume-less coal, during production.

無須鐵網、門樑及鋼鐵支架，減少使用額外材料進行安裝，降低能耗。
No supporting materials such as metal mesh, lintel and steel stiffener are required.

在生產作業上，每一個流程均遵從 ISO14000 的工作原則貫徹執行，以確保整個生產過程上，達至可持續發展。
Each production process follows the principle of ISO14000 to ensure sustainable development.
