Gold Award

大埔循道衛理小學 Tai Po Methodist School

本校有四大環保目標，分別是建設一個可持續的“綠色學習”校園；家校合作，共建長久的綠色生活；推行環保四用原則(減少使用、循環再用、廢物利用、替代使用)、節能減碳和有機種植；以及將環保教育與課程結合，協助向社會推廣環保。

Our four environmental goals include: to establish a sustainable 'green learning' on campus; to join hands with parents in establishing a lifelong and green living lifestyle; to promote 4Rs (Reduce, Recycle, Reuse, Replace), energy saving, carbon reduction and organic planting; and to integrate environmental education in the curriculum and to help enhance the awareness of the public.

蝴蝶園內的主要池、綠蔭和沙灘是常識科教學平台。
The ecological pool, Junissio Park and Gola desert in the Butterfly Garden provide a teaching platform for General Studies.

地球室圖庫以難題有生態和天文館。
The 'Earth Explorer' museum comprises the ecosystem and astronomy pavilions.

將停車場改建為有機種植園，設置多元教學有機苗圃。
The former car park has been converted to an organic garden with a multi-educational and self-sustaining vegetable nursery.

去年超過一千名幼稚園學生、小學教師和社區團體人士參觀本校環保設施。
Last year, over 1,000 kindergarten students, primary school teachers and community group representatives visited the green facilities of our school.
