## 鳳溪創新小學 Fung Kai Innovative School

本校致力推行環保教育工作，除了一般硬件設備外，還透過不同的活動及課程，讓學生認識環境保護的重要性。本校更使用電子書取代傳統課本，以及採用臉孔辨識系統作每天點名以及借書記錄，減少紙張使用。

Our school has a strong commitment to environmental education. Apart from the installation of environmental facilities, we have also raised students' green awareness through various activities and our curriculum. Besides, our school has adopted E-books and a face recognition system for daily attendance taking and book borrowing from the library so as to reduce paper consumption.
