佳能香港有限公司

Canon Hongkong Company Limited

佳能香港有限公司致力提倡「綠色產品周期」，減少其產品在生產、應用及循環再造各個層面對環境的影響；通過推行各種企業環保政策及活動，與社會共同締造和諧共生的環境。

Canon Hongkong Company Limited promotes a "Green Product Life Cycle" that links up the "Produce", "Use" and "Recycle" stages of the life cycle of our products so as to minimize their environmental impacts. Through various environmental policies and campaigns, we join hands with the community to build a sustainable environment for all.

為配合「綠色產品周期」的方针，佳能香港致力推廣環保節能產品，並於本地推行回收計劃，提供渠道讓客戶參與環保。Canon upholds the "Green Product Life Cycle" by promoting products with environmental and energy efficient features. We also provide a platform for local customers to return their used products and to encourage them to go green.

佳能香港採用環保物流，透過使用對環境負荷較低的運輸模式，例如將部分空運貨物改為海運，令2012年的物流總碳排放減少1732.46噸。Canon Hongkong adopts an eco-logistics system. Through using the transportation with a lower environmental impact, such as switching from air to ocean shipping for some products, the carbon emissions from freight transport were reduced by 1732.46 tonnes in 2012.

佳能推出高效節能的imageRUNNER ADVANCE 多功能文件處理系統，透過佳能獨有的按鍵投影技術，在休眠模式下只消耗1至1.5瓦特。Canon launched the energy efficient imageRUNNER ADVANCE multi-function device. Through the use of proprietary Canon on-demand fusing technology, the energy consumption in the sleeping mode is only 1 to 1.5 watts.

佳能香港為其影像產品推出多項回收計劃，每年回收量達400多噸，逾90%的回收物料可循環再造成其他有用資源。Canon Hongkong has established various recycling programmes for its imaging products. Every year, more than 400 tonnes of products are collected. Over 90% of the collected items can be recycled into useful resources.
