嘉亨灣

Grand Promenade

嘉亨灣於建築初期已安裝垃圾壓縮機及雙管垃圾槽等環保設施。過去八年來，我們積極推行多項節能措施，並設立環保大使專責宣傳環保。嘉亨灣是全港首批推行廚餘回收計劃的屋苑，更積極推廣綠色措施及堆肥計劃至鄰近社區。

業主委員會鼎力支持廚餘回收計劃。

The Food Waste Reduction Programme is supported by the Owners' Committee of Grand Promenade.

Grand Promenade was equipped with eco-friendly facilities like a garbage compressor and dual chute system early in the construction stage. In the past 8 years, we have launched various energy saving projects and appointed green ambassadors to promote environmental protection. Grand Promenade is the pioneer to launch the food waste recycling programme and is active in promoting green practices and the organic fertiliser project to the neighbouring community.

配備垃圾壓縮機，可將廢物體積減少七成五，減輕堆填區負荷。

Equipped with a garbage compressor which can reduce the garbage volume by 75% so as to reduce the burden on landfill.

嘉亨灣環保大使於屋苑內推廣環保。

The Green Ambassadors of Grand Promenade are responsible for promoting environmental protection in the estate.

鄰近屋苑代表參觀嘉亨灣廚餘機房，分享廚餘回收的好處及經驗。

Sharing the benefits and experience in food waste recycling with the neighbouring estates during their site visit.
