

2013 香港環保卓越計劃

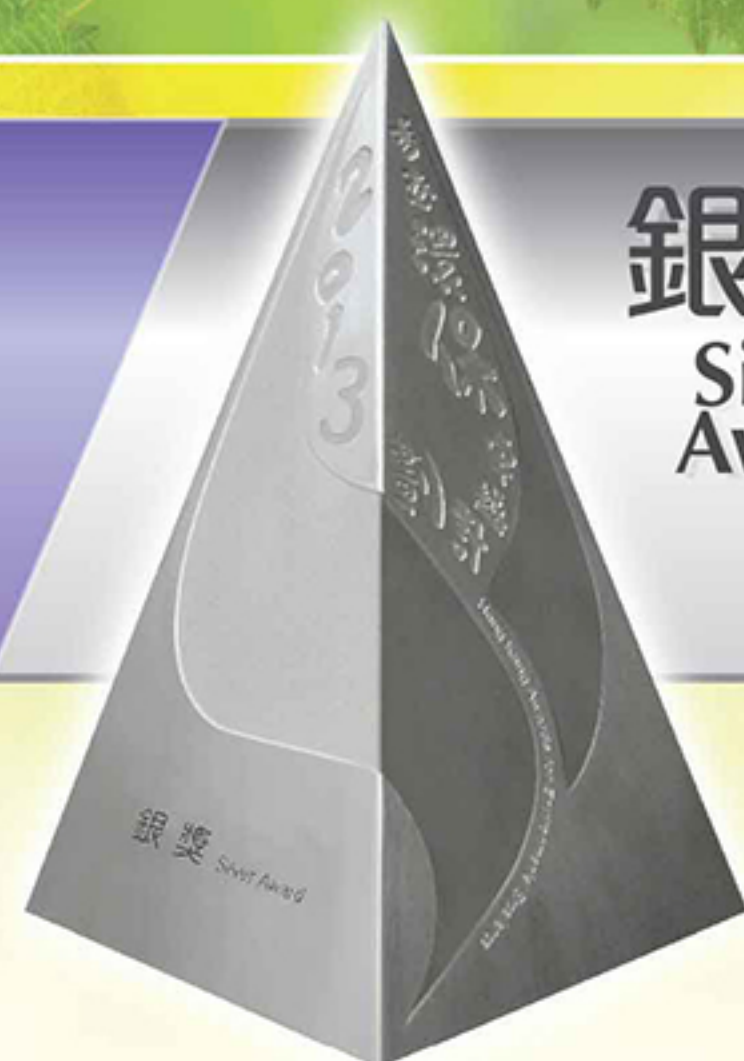

Hong Kong Awards for Environmental Excellence

公營機構及公用事業 Public Organisations and Utilities

銀獎
Silver Award

香港機場管理局 Airport Authority Hong Kong

機場管理局致力將香港國際機場建設成為全球最環保機場，是同行中首個作出承諾的機構。為了實現目標，機管局制定及推行超過120項嶄新的環保措施，涵蓋多個範疇，包括碳排放、廢物管理、空氣質素及能源效益等。

香港國際機場於2012年獲國際機場協會頒發「機場碳排放認可計劃」的「優化」級別證書。
In 2012, HKIA was awarded the Airport Carbon Accreditation "Optimisation" certificate by the Airports Council International.

Airport Authority Hong Kong (AAHK) is committed to making Hong Kong International Airport (HKIA) the world's greenest airport, the first commitment of its kind worldwide. To realise the objectives, AAHK has devised and implemented more than 120 innovative environmental programmes and initiatives covering a wide range of aspects, including carbon emissions, waste management, air quality and energy efficiency.

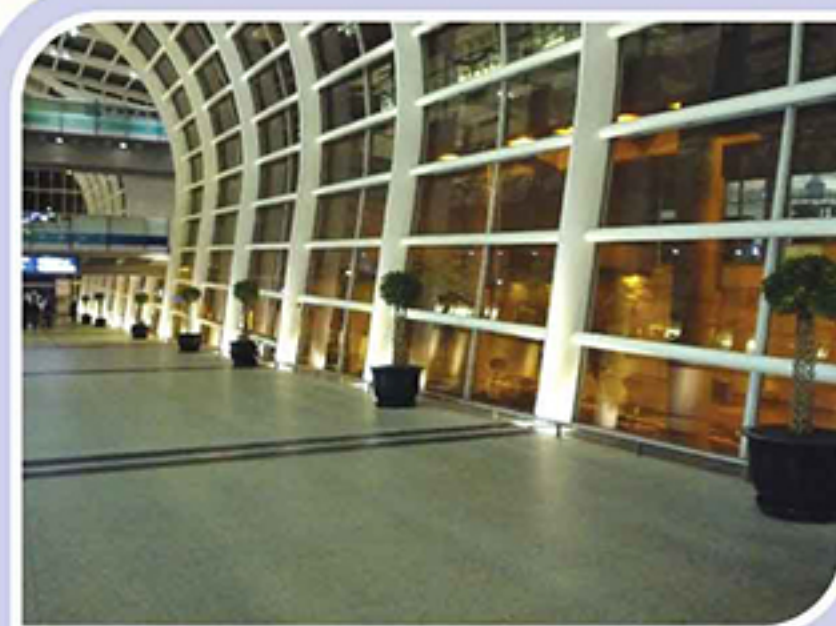

機管局在香港國際機場積極推廣使用電動車，以減少溫室氣體和空氣污染物排放。

To reduce greenhouse gas emissions and air pollutants, AAHK actively promotes the use of electric vehicles at HKIA.

香港國際機場環保基金資助惜食堂的「食物回收及援助」計劃，於香港國際機場收集剩餘食物。

Supported by HKIA Environmental Fund, Food Angel began food rescue from HKIA.

機管局現正進行全港最大規模的發光二極管燈更換計劃，將客運大樓的10萬枚傳統照明裝置更換為發光二極管燈。預計每年可節省1,500萬度電力，相等於減少9,000公噸二氧化碳排放量。

AAHK is conducting Hong Kong's largest LED conversion project, replacing 100,000 conventional lights in the terminal buildings with LEDs. The project is estimated to save 15 million kWh electricity per year, which equals to the reduction of 9,000 tonnes of CO₂ emissions.
