Silver Award

太古可口可樂香港致力減低營商對環境的影響。2014年，透過縮小鋁罐頂部的尺寸和安裝水循環系統令每年節省289噸鋁用量及每日減少100噸用水量。

Swire Coca-Cola HK is committed to effectively minimising the impact of business operation on the environment. In 2014, the can-end conversion project and installation of water recycling system resulted in a reduction of 289 tonnes of annual aluminium usage and 100 tonnes of daily water consumption respectively.

鋁罐頂部的直徑由6.5 cm 縮小至5.9 cm，減少鋁用量。
Changing the diameter of can-end from 6.5 cm to 5.9 cm to reduce aluminium usage.

購入兩輛電動車作試驗，並於停車場設立充電站。
Purchased two electric vans for trial and set up a charging station at the car park.

水循環系統收集的水再用於生產線和冷卻塔。
Water collected by the water recycling system will be reused at the production lines and cooling tower.
