東方海外貨櫃航運有限公司
Orient Overseas Container Line Limited

交通及物流業

Transport and Logistics

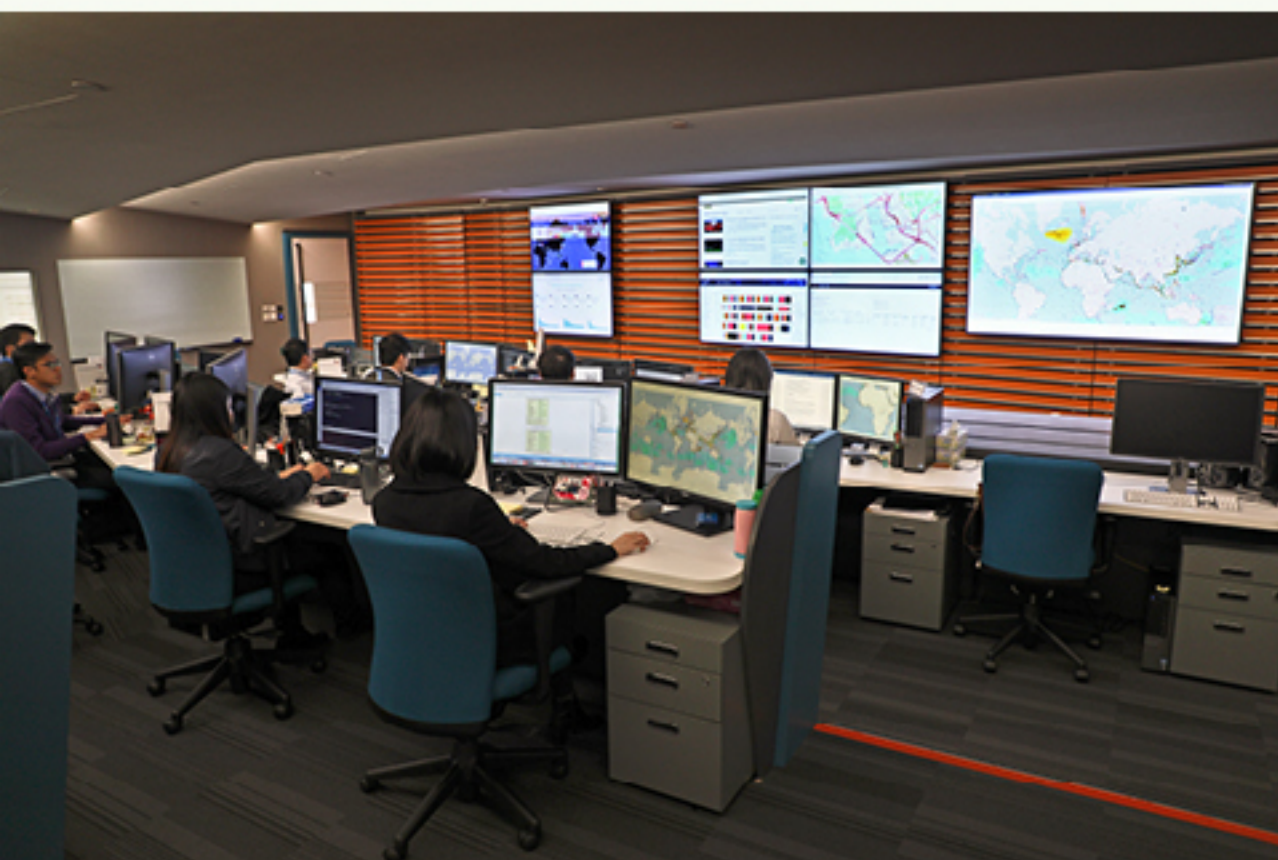

東方海外貨櫃航運有限公司意識到企業要承擔其運作對環境影響的責任。公司致力提倡創新的環保措施，並將聯合國可持續發展目標納入公司管治架構，積極應對全球環境和社會挑戰。

Orient Overseas Container Line Limited (OOCL) recognises that it is the responsibility of corporate businesses to protect the environment. OOCL is committed to advocating innovative environmental initiatives and incorporating the United Nations Sustainable Development Goals into the Company's corporate sustainability framework, to help tackle global environmental and social challenges in a pro-active manner.

投入配備先進環保設置及頂尖引擎技術的世界最大貨櫃輪，有效降低能源消耗水平；在達致最佳的能源效率設計指數 (EEDI) 之餘，更能符合現今及未來環保的要求。

Launching the world's largest container vessels that meet current and future environmental requirements. These vessels are equipped with advanced green features and engine technologies, in order to contribute to lower energy consumption levels and achieve the best Energy Efficiency Design Index (EEDI).

建立全球船舶航班監測中心，監測貨輪及港口的實時狀況，從而提高燃油效益和船隊表現。

Establishing Global Vessel Voyage Monitoring Centre (GVVMC) to monitor real-time status of container vessels and ports to enhance fuel efficiency and fleet performance.

於每艘貨輪安裝氣象路線系統，以協助船隊因應不同天氣情況選擇最佳航運路線，減少燃油消耗。

Installing a weather-routing system on each vessel in order to assist vessel crew in choosing the optimal route according to different weather conditions for fuel saving.
