Hong Kong Awards for Environmental Excellence 2019

## 銅獎 Bronze Award

中小企界別 — 服務業  
SME – Servicing Industry

**The New Phase Grassroots Limited**

The New Phase Grassroots Limited 貫徹執行環保理念，積極避免於營運過程對環境構成影響，例如於2017/18年將八噸廚餘成功轉化為無害液體；餐廳的素食餐單的食材，超過九成取材自本地有機農夫，以減少因運輸食材所引致的碳排放；透過座枱卡向顧客介紹餐廳可持續發展的表現，以及在賬單上徵收3%碳排放稅，以支持餐廳的合作夥伴。

The New Phase Grassroots Limited is committed to implementing its environmental concept in its operation to pro-actively reduce its impact to the environment. For example, the successful conversion of eight tonnes of food waste into non-toxic liquid in 2017/18, sourcing of over 90% of the food ingredients of its plant-based menu from local organic farmers to reduce carbon emission due to transportation, introducing its sustainability performance through display of tent cards and imposing a 3% carbon tax in the bill to support the partners of the Restaurants.

在翻新過程中，捐贈不需要的傢具予其他本地餐廳，亦利用倒塌樹木的樹幹製作茶几及切芝士的木砧板，以減少製造廢物。

Reducing the waste generation during the renovation by donating unwanted furniture to other local restaurants and using fallen tree trunks to make side tables and cheese boards.

在本地採購90%的食材，例如購自本地有機種植的農夫及本地初創企業，以減少運輸過程中產生的碳足印，並為餐廳提供更新鮮的第一手選擇。

Sourcing 90% of the ingredients locally, such as from local organic farmers and local start-ups to reduce carbon footprint incurred in the transportation and allow first-hand fresher choice for the Restaurant.

設置廚餘機，並利用空氣、水及微生物將食物殘渣轉化為對環境無害的液體，從而減少了9 000公斤以上的廚餘。

Reducing over 9 000 kg of food waste through installation of a food waste digester, which uses air, water and microorganisms to turn food scraps into non-toxic liquid.
