城巴有限公司 / 新世界第一巴士服務有限公司  
Citybus Limited / New World First Bus Services Limited

城巴有限公司 / 新世界第一巴士服務有限公司一直本著可持續發展的理念，訂定環境保護政策，並於管理及日常營運中積極實踐，包括引入環保巴士、廣泛應用可再生能源及推行節能減廢措施等，致力為公眾提供可持續的優質公共巴士服務。

Upholding the principle of sustainable development, Citybus Limited / New World First Bus Services Limited have set out an environmental protection policy and strived to practise green measures in their daily management and operations, including the introduction of more green buses, wide adoption of renewable energy and implementation of energy saving and waste reduction measures, to provide sustainable and quality public bus services for the public.

參與「上網電價」計劃，並在巴士廠安裝超過200塊與公共電網連接的太陽能電池板。部份巴士站候車亭亦安裝了太陽能電池板，供電予發光二極管燈照明。

Participating in "Feed-in Tariff Scheme" with installation of over 200 photovoltaic panels in bus depots which are connected to the public electricity grid. Solar panels have also been installed at some bus stops shelters to support LED lightings.

購買環保型號巴士以升級巴士車隊，減少燃油消耗。超過95%的巴士為歐盟五型或以上標準。三輛混合動力巴士及十輛單層電動巴士亦已完成試驗並繼續服務。

Purchasing eco-friendly bus models to upgrade the bus fleet in order to reduce fuel consumption. Over 95% of the buses are of Euro V or above standard. Three hybrid buses and ten single-decker electric buses have also completed trial and continue to provide service.

安裝雨水收集系統，從巴士廠天台及洗車機頂部收集雨水，循環再用來清潔巴士廠房及巴士，節省用水。

Installing a rainwater harvesting system to collect rainwater from the roof of depot and bus washing machine for reuse in the depot and bus cleaning process to reduce water usage.
